Vibrational Medicine Demonstration

Everything is in motion... All matter, animate, inanimate and subtle, vibrates. These vibrations produce molecular frequencies that can be numerically coded as 'radionic rates' and measured to give information on various levels of being.

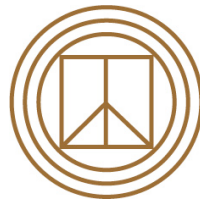

All organs, glands, meridians, emotions, thoughts, toxins, events etc have their own energetic signature. With the use of Advanced Radionics (Subtle Energy) instrument EQ 11:11 we can analyze and re-balance at a distance and determine underlying causes of diminished wellbeing within a living system (human, pets, water, house, soil etc).

**Bring samples of tap water and house dust for free partial analysis*
